Message from the General Manager

Dear Colleagues and Distinguished Stakeholders,

We continue our activities within the framework of our business ethics principles by embracing and internalizing the values expressed by the late Vehbi Koç, the founder of the Koç Group, in his statement, “Our motto is to adhere to superior business ethics and principles of honest work. In all our relationships, our principle is to act with fairness, mutual benefit, goodwill, and understanding, always complying with laws and moral rules”.

As Otokar, we aim to be a symbol of reliability, continuity, and respectability for our employees, customers, partners, and all other stakeholders with whom we cooperate; we aim to be a good corporate citizen with an awareness of our responsibilities to the society in the places where we operate.

As a company operating in global markets, we are aware of the importance of adopting universal approaches and maintaining an ethical stance in the face of rapid developments in the sectors we operate in and changing competitive conditions, without compromising honesty in line with our vision to take our business further.

We aim for the Otokar Code of Ethics and related policies we publish to serve as a guide for our employees and all our stakeholders in this sense.

I once again extend my gratitude to my colleagues who have taken our ethical principles as their guide in every step they take and who have created this collaborative environment since our establishment.

Kind regards,

Aykut Özüner

General Manager

Question:

My manager is frequently asking questions about my ethnic origin and family. I do not want to take any action since I do not want to lose my job, but I am afraid he/she may block my promotion.

Answer:

If you believe your manager's behaviors have a negative effect on you and lead to discrimination in the workplace, you can notify this situation to his/her superior, to Human Resources Department or to the Ethics Hotline anonymously.

Please refer to Otokar Human Rights Policy for detailed information.

3.2 Compliance with Laws Under any Circumstances

We comply with the regulations in every country we operate, act according to our Code of Ethics when the regulations are unclear, and contact competent authorities when necessary.

As Otokar, we see intellectual and industrial property rights as an important instrument in creating sustainable competitive advantage, and obtaining the best business results. In this regard, our fundamental principles are to protect the innovations that make a difference and our strong brands in the markets we operate, to create value from our portfolio, to be open to collaboration in this area, and to respect the intellectual and industrial property rights of third parties.

We act in compliance with the regulations pertaining to the processing of personal data and we take necessary precautions, accordingly. Within this concept, as Otokar, we act according to the principles and the related legislation.

We record all our commercial transactions and keep our records completely and clearly according to the legislation in effect, and make sure that the agreements with third parties are clear, understandable, comply with the regulations and our Code of Ethics.

We provide necessary trainings to our employees. However, we also expect them to know under which circumstances they are required to ask for support of their managers or Legal and Compliance Department.

We know that compliance not only affects the related employee, department or Company, but also the entire Koç Group. We are also aware that we must act according to the local regulations and international arrangements within the scope of the Otokar's contractual obligations, and that any incompliance can lead to administrative penalties for the Company, and that individuals may also be held liable.

QUESTIONS WE MUST ASK TO OURSELVES WHILE ACTING ON BEHALF OF OTOKAR

Am I acting in compliance to the laws?

Am I acting in accordance with the Code of Ethics and the related policies of Otokar and Koç Group?

Am I reflecting Otokar and Koç Group's culture correctly?

Have I considered the relevant risks?

Will my action affect Otokar's reputation or Koç Group negatively?

3.3 Anti-Bribery and Corruption

As Otokar, we perform each task and make every decision according to the highest ethical standards. We adopt the United Nations Global Compact signed by Koç Holding A.Ş. and accordingly, we resolutely take necessary actions against bribery and corruption.

In line with our Code of Ethics and related policies, it is strictly forbidden to provide advantages to local or foreign officials and other third parties to obtain illegal benefit, regardless whether they are public servants. This prohibition includes providing, offering, promising to give anything of value to third parties, who are directly or indirectly related to the Otokar's commercial activities, to affect their decision, and to accept such values from these parties.

All our employees, including our Affiliates must comply with the local and relevant international regulations and Otokar policies pertaining to bribery and corruption, and we expect all our Business Partners to act accordingly.

Gifts and Hospitality

Our gift and hospitality practices must conform to the below criteria:

- Must comply with the prevailing legislation.
- Must be occasional, within the limits and reasonable amounts specified in the policies and procedures.
- Must not be in cash or equivalent.
- Must be recorded to our books in a clear and transparent way.
- Must be carried out according to the accepted commercial practices.
- Must not be of a nature that would affect any decision-making process in our business relations or not cause such an impression.
- Must not damage the Koç Group or Otokar's reputation if they become public.

Please refer to Otokar Anti-Bribery and Corruption Policy and Otokar Gift and Hospitality Policy for detailed information.

Question:

Ahmet, who works at the sales department of A, one of our suppliers, sends gifts to our purchasing department regularly. These gifts can be local desserts, chocolates, shirts or ties. Can we accept such gifts from companies we work with in order not to disrupt our continuing business relationship?

Answer:

If the gifts and hospitalities are provided regularly, and if their price exceeds reasonable amounts, this situation constitutes a contradiction with the Gift and Hospitality Policy. If the gifts are sent regularly and their prices exceed a reasonable level, they may affect the decision-making process or create the impression that they do, because of which such gifts must not be accepted.

3.4 Preventing Conflicts of Interest

While making decisions based on our roles and responsibilities within the Otokar, we avoid situations, where our personal interests and responsibilities conflict with those of Otokar and Koç Group, such as gaining personal benefit or providing improper advantage to our family or friends, or any situation that may give such impression and may impair our impartiality in the decision making process.

If we find ourselves in a situation that can be considered as a potential conflict of interest, we shall inform our managers and Legal and Compliance Department to avoid possible damages such situation might cause. In order to prevent potential conflicts of interest:

- We avoid gaining personal interest for ourselves or our relatives and friends by abusing our position or authority.
- We make sure that our personal investments outside of work do not prevent us from allocating time and attention to our work, and we avoid any situation that may avert us from focusing on our own duties.
- Even outside the working hours, we do not engage in any activity and/or enter into a business relationship that may be contrary to our loyalty obligation to Otokar and Koç Group and/or that may adversely affect our individual performance.
- We inform our managers and Legal and Compliance Department in the event that a person in a primary decision-making position at a customer or a supplier company of Otokar, is our relative or close associate.

Question:

I am one of the decision-makers in the purchasing process of my company. My cousin is a major shareholder in one of our candidate suppliers. However, this company is in compliance with our standard purchasing procedures, proficient in its area, and offers the highest quality products. We will probably sign the contract with them. What should I do?

Answer:

This company may be selected as a supplier if fair and impartial assessment has been performed during the evaluation process. However, to prevent the impression that you selected them to gain personal interest, you should not be involved in the decision-making process. Therefore, you must inform your immediate superior about this matter, and ensure that another manager makes this decision. Thus, you can ensure that the decision is made in an ethical and transparent manner.

3.5 Prevention of Laundering the Proceeds of Crime, Financing of Terrorism and Weapons of Mass Destruction

Integration of income derived from illegal activities into the financial system by creating the impression that it has been gained through legal methods is called money laundering. As Otokar, in accordance with the local and international regulations, we take necessary measures against and avoid all kinds of commercial transactions that can be seen as the laundering of proceeds of crime, and perform third party due diligence activities before entering to a business relationship. As Otokar, we do not interact with third parties about whom we do not have sufficient information, which have negative intelligence, which pose a risk and raise doubts for these reasons.

Please refer to Otokar Prevention of Laundering the Proceeds of Crime, Financing of Terrorism and Weapons of Mass Destruction for detailed information.

3.6 Compliance with Economic Sanctions and Export Controls

As a globally operating Company, we take effective and necessary measures to ensure compliance with regulations on economic sanctions and export controls.

In this regard, we do not establish direct or indirect commercial relationships with persons in sanctions or embargo lists, unless necessary in which case, we first obtain the approval of the Legal and Compliance Department to ensure that such relationship does not constitute a violation of applicable laws or our contractual commitments.

Please refer to Otokar Sanctions and Export Controls Policy for detailed information.

Question:

If the company I trade is not in the sanction list, but is located in a country to whom comprehensive sanctions are applied, can I still trade with it?

Answer:

In countries which are subject to comprehensive sanctions, the origin of the raw materials of the product sold, the currency by which the payment is made, the nationality of the persons who sign the transaction must also be controlled in addition to the party you trade with. If we trade with these countries, the approval of the Legal and Compliance Department must be obtained.

3.7 Confidentiality and the Protection of Insider Trading

We know that it is restricted to use or disclose personal, commercial, financial, technical, legal and/or similar confidential information of our Company, employees or Business Partners for our own benefit or on behalf of the third parties' interest, and take necessary actions to protect the confidential information that comes into possession due to our roles and responsibilities.

We use the obtained information only for the purposes of work that we are obliged to perform in relation to our job descriptions. We act according to the regulations and our contractual obligations while sharing commercial secrets and other confidential information.

We are aware that it is a crime (“**Insider Trading**”) to gain personal interest for oneself or for others by acting or transacting based on information about Otokar traded publicly, or about the capital market instruments issued by Otokar which could affect the prices or the values of the relevant capital market instruments or the decisions of the investors, and which have not been made public yet (“**Internal Information**”), and we inform our employees against such attempts. We take all necessary precautions to ensure the protection and confidentiality of Internal Information; and avoid acts and transactions which could lead to predatory practices, market fraud or insider trading in accordance with the capital market regulations.

We protect the confidential information that we have even after we leave the Otokar, and do not share them with third parties.

Please refer to Otokar Information Policy for detailed information.

Question:

As an employee of the Koç Group, can I buy and sell the shares or other capital market instruments of Koç Group companies?

Answer:

If you do not have information that could affect the undisclosed price, you can trade at any time. However, as long as you have undisclosed information that may affect the stock price because of your duties within the Koç Group, you should not trade company shares and debt instruments in the capital markets. In particular, those who have information about financial statements, important projects, investments, and decisions about activities and financial status before they are made public must certainly not traded. The confidentiality of the information must be safeguarded until it is disclosed by the company, and it should not be shared with anyone. Remember that we are responsible not only for our trades but also trades of our relatives and those with whom we share such information.

3.8 Donation, Sponsorship and Community Investments

In order to support social development in the countries we operate, we make donations and perform sponsorship activities which conform to our principles. We carry out donation and sponsorship procedures in a transparent manner, and ensure that these activities do not contradict with Koç Group and Otokar's values or commercial interests.

We do not donate or sponsor any activity which violates human and animal rights, or which promotes tobacco, alcohol and drug consumption, or which harms the nature. We do not donate to organizations that discriminate people based on gender, language, religion, race, color, age, nationality and thought differences, or sponsor such activities.

Community Investments

We develop longstanding collaborations aimed at the needs of the countries we operate, and invest in environmental and social matters. We attach importance whether the community investments are in parallel with our business priorities, and performed in cooperation with the coordination of expert organizations or individuals.

Political Activities

We do not donate to political parties, politicians or political candidates. However, we are respectful of our employees' participation to the legal political activities voluntarily, and do not restrict them. Company resources (vehicles, computers, e-mail, etc.) cannot be used for political activities and personal donations to be made to this end. Political demonstrations, propaganda and similar activities are not permitted in the Otokar's premises.

Please refer to Otokar Sponsorship and Donation Policy and Otokar Community Investments Policy for detailed information.

Our fundamental principles are as follows:

- To comply with the relevant legislation regarding competition law,
- Not to make agreements or act together with competitors or other persons or organizations that can directly or indirectly hinder, disrupt or restrict competition, or that can have this effect outside the limits permitted by the laws,
- To obtain information about competitors only through methods compliant with the laws and precedents, and to refer or use such information by providing our legitimate sources in all relevant documents,
- To avoid behaviors which could be interpreted as abuse of dominant position by our Company that hold such position in the relevant markets,
- To avoid negotiations and communications at private or professional meetings and gatherings such as associations, councils, chambers, professional association meetings, conferences, fairs, etc. where our employees attend as Otokar representatives which could lead to violation of the above listed rules and principles,
- To handle matters within the Company which could lead to violation of competition laws, with the same care and diligence.

Question:

Can we contact a person who worked in a rival company in the past and ask him/her to obtain information about prices, costs, stocks, price increases and decreases, and campaigns of his/her previous employer?

Answer:

Sharing information about prices, costs, stocks, price increases and decreases, and campaigns, which are considered as “competition-sensitive”, is strictly forbidden in terms of the competition law, and may lead to heavy penalties both for the Company and individuals involved. Therefore, you should avoid obtaining information about the competitors directly from them via employees or other means.

3.10 Creating a Healthy and Safe Work Environment

One of Otokar's objectives is to create a healthy and safe work environment for our employees, and ensure that our Business Partners also create such work environments. We take all kinds of measures to this end, and provide trainings about occupational health and safety to increase awareness.

We perform our operations in a healthy and safe manner without risking the lives of our employees, contractors, distributors, and the society. Within this concept, we use safely designed facilities, work with professionals who are experts in their fields, and prioritize safety in our processes.

In Otokar, we prioritize human life. No work is so important than it can be performed without occupational health and safety measures. Question:

My manager smokes in the production area, although it is forbidden to keep flammable materials in the working area for our safety. What should I do in this situation?

Answer:

If possible, you should warn your manager at first. If he continues the same behavior, you can bring the issue to the attention of your senior manager or you can notify this situation to Human Resources Department or to the Ethics Hotline anonymously.

Question:

A dealer we have been working with for many years is owned by a well-known and respected family in the industry. It has been showing a high performance lately, and we have a very profitable business relationship for our Company. However, I have learned that some of its employees were uninsured, and that underage children were employed during busy periods. Our dealer states that this situation was caused by necessity, and that none of its employees complained of the situation, and that all salaries were paid in cash by hand. What should I do?
